

BOLOGNA SHOAH MEMORIAL COMPETITION - Q&A - PHASE 2

Question	Answer
Is possible to move the grids for ventilation placed in the existing walls with another that can guarantee identical effectiveness but placed in coverage?	No. It is not possible.
Can we replace the grids for ventilation currently present on one side of the existing walls with other grids made of other material, color, finishing and design?	Yes as long as the ventilation surface/structure is not altered
it can be expected a technical access to the space that facing the tracks between the existing wall and the entrance on via Carracci to underground parking ? If so, what kind of access should it be? What dimensions should be? it can be smaller as possible, enough to permit the access to one maintenance guy and his tools?	No. It is not possible
If the space that facing the tracks will be closed to the public and dedicated only for maintenance of existing plant It is possible to replace the existing metal grid walls of 2.20m. high with other protection systems as railings of 1m. high or a fall-arrestor system?	The areas closed to the public is comprised of two triangles on the sides of the existing walls. It is possible to replace or substitute the existing barrier.
Dear Sir/Mdm, does the 12,000 characters explanatory report in A4 format includes the technical/economic assessment? Descriptions and list of work might exceed the maximum number of characters. Regards	This elaboration is to be considered outside of the limit of 12,000 characters.
In the explanatory report is it possible to add schemas and images?	It is allowed as long as it does not violate the maximum number of characters outlined.
The budget we have for the realization of the Memorial is 95.000? as written on the ?Opening Planning competition? or 120.000? before taxes as written in the Competition announcement, paragraph 5?	The budget is 120,000 euros (IVA/VAT included)
In jury's notes, it's requested a technical/economical assessment. Should it be a general estimation of costs, or a real bill of quantities/materials?	We have provided as a reference a regional price list. We require an estimated metric computation.
About the delivery of the hard copies, should it be on 12th of June as written in the ?deadline? section or on 24th as specified on paragraph 19 of the Competition announcement?	The deadline has been moved to the 19th of June. All submissions must be postmarked by this date, June 19th. June 24th is still a valid date by which all elaborated materials/projects must be received, and postmarked by June 19th.
Do we have to submit on chart 1 only the requested drawings or we can add more drawings/schema according to our project?	It is mandatory to rigidly adhere to the guidelines outlined in the competitions official documentation.
can you please publish a list of the submitted projects by code? (so that participants can double check if their submission was well received) also will there be any special mentions? thanks	A list of submitted projects by alphanumeric code numbers will be presented at the end of the competition. At this time there is no plan to include special mentions, however, the projects selected by individual jury members will be highlighted.
the calendar states June 12, 2015 as the date for submission of hard copies of design documents, phase 2 but the brief (point 19) states: " the postmark date will be proof of dispatch; in any case, any packet that arrive after 12.00pm (+1GTM) on the 24th of June will not be accepted.". Is the delivery date of phase 2 material June 12th or June 24th 12pm? - Is it available a more updated general plan? The uploaded general plan does not show the station building and along via de' Carracci. - Can the first A1 chart include perspective views as well?	All materials must be submitted by June 24th, however, they must also be postmarked by June 19th. Additional material regarding the train station is not available. It is not possible to insert additional material into chart 1.
